

SPACHINA NEWLY OPENED SPA AWARDS WINNER 2016

(Chengdu, China; 5th September, 2016) MI XUN Spa at The Temple House has been named "Best Newly-Opened Spa of the Year" at the 9th SpaChina Awards hosted in Li Jiang. While MI XUN Spa has only been in operation for under a year, the award is an acknowledgment of its superb performance and exceptional facilities.

SpaChina Award is considered one of the industry's most influential accolades, both in China and across the Asian region. Nominees are put through a rigorous four-month evaluation by a judging panel. The judges comprise senior spa consultants, experienced spa managers and discerning spa enthusiasts, and account for 80% of the final decision, weighed against the results of an online poll.

"MI XUN aims to create a thoughtful and holistic spa experience. All our treatments are curated to deliver results, while the tea house provides a tranquil setting for guests to relax and recharge while enjoying healthful refreshments. The spa offerings and tea house experience perfectly complement each other, and at MI XUN our guests enjoy the combined benefits of both to help them ease away the tensions of today's busy city lifestyle," said Kelly Coates Xu, Director of Spa Operations at MI XUN.

Fast approaching its first year anniversary, MI XUN Spa has made customer experience a top priority since its first day in operation. This was achieved through dedication to service, knowledgeable and well-trained therapists, results-driven treatments, and exceptional products from reputable brands such as Natura Bissé, Therae, Mesoestetic and Aromatherapy Associates, which has been affirmed as a winning combination by the award.

With an eye on the future, MI XUN Spa strives to become the leading spa and wellness destination in Chengdu within the next five years, and under the capable charge of The Swire Group's award-winning hospitality arm, grow into a top national and global spa destination in the near future.
