FOUR SEASONS JIMBARAN PREMIERS PURE®TDA FACIALS

Developed by spa specialist A.W. LAKE (Singapore) - in partnership with MedDrop (Germany) and ArivinePharma (Switzerland) - the PURE® TDA Facial system is set to revolutionize the spa industry. TDA stands for transdermal application: a therapy system that transports PURE's concentrated supercharged bio-active ingredients, at supersonic speed and frequency, directly to the dermis via a computer-guided applicator.

The PURE® TDA Facial begins with a cleansing program followed by the PURE® CELL dermabrasion, where finely ground sapphire crystals smooth and prepare the skin. This enhances the uptake of one of the highly targeted serums - delivered to the skin via a unique TDA applicator - penetrating deep into the dermis. The therapy concludes with a skin nourishing and hydrating PURE® COVER mask.

Radically readjusting the skin, the PURE® TDA system's active ingredients are blended with TDA Carrier Substance, a patented fluid that facilitates deep skin penetration to improve oxygen and blood circulation, and cellular metabolism, without pain or the use of needles.

The Spa at Four Seasons Resort Bali at Jimbaran Bay offers a bespoke, individually tailored approach to the PURE® TDA Facial. Each 60-minute PURE® TDA Facial treatment will minimize the appearance of wrinkles, irritation and acne in just one session; sustainably and visibly tightening and regenerating facial skin cells while hydrating and nourishing at the deepest possible level.†
